Principal Investigator Requirements

1. SCOPE:
The policy applies to human research conducted at Yeshiva University, Montefiore Medical Center, and the North Bronx Healthcare Network.

2. POLICY:
   a. The institutions’ Federalwide Assurances hold the institution and the Principal Investigator responsible to conduct human subject research in compliance with federal regulations and institution policy.
   b. The Principal Investigator is required to have a faculty appointment to a Yeshiva University school with a rank of:
      i. Principal Associate or higher, or
      ii. Instructor or higher.
   c. The Principal Investigator is required to be:
      i. a YU employee, or
      ii. an employee of the facility where the research will take place.
   d. Exceptions to the above policy require approval by the Executive Dean or designee.
