SCIENCE & BUSINESS:

A Journey from Harvard Square to Wall Street to Morris Park Avenue...

Join this exciting presentation as Einstein’s Director of Business Development, Richard Kosman, shares insights on how his career path led him from Harvard to the exciting world of life sciences investment banking on Wall Street and how that experience has guided some of Einstein’s technology transfer and business development initiatives.

Some topics to be discussed include:

- The methodology used by life sciences investment banking corporate finance teams to determine which technologies and companies are worthy of investment
- The results of implementing investment banking approaches to Einstein’s technology transfer and business development activities
- The life sciences investment banking community as an alternative career path for students and post-docs

This talk is applicable to faculty, students, post-docs, and scientific staff. All are invited to attend!

Wednesday, February 17, 2010
4:00PM
LeFrak Auditorium (1st Floor)
Price Center/Block Research Pavilion
Light refreshments will be served at the start of the event.

ABOUT THE SPEAKER:

Richard Kosman received his A.B. degree in Chemistry summa cum laude and Phi Beta Kappa from Harvard College and received his Sc.M.M. degree from Harvard Medical School. Prior to joining Einstein in 2001, Richard worked as a life sciences industry investment banker/entrepreneur. Since joining Einstein, Richard has taken on increasing responsibility. In 2007, he was further promoted to founding Director of the Office of Business Development, which was created to establish additional collaborations with academic and commercial entities and to further translate the basic research advances made at Einstein into clinical applications.

This event is co-sponsored by the Offices of Biotechnology and Business Development, The Graduate Division of Biomedical Sciences, Belfer Institute for Advanced Biomedical Studies, and the Office of Faculty Development.
