SUPPORT OUR EFFORT TO REPAIR THE LEAKING ROOF OVER THE MFERA HEALTH CENTRE IN RURAL MALAWI. Hundreds of women deliver babies here every month and don’t even have a roof to keep them dry. We can change that! Students and faculty from all of the schools at the University of Maryland, Baltimore have been working closely with communities in Malawi for over a decade. We have experienced firsthand how our colleagues there struggle to save lives under truly adverse conditions. They have taught us the meaning of dedication, compassion and respect for those we serve.

HOW WILL WE REACH OUR GOAL?

100% Participation of Malawi Project Alumni
We are asking all of you to contribute something! Plus, we are organizing faculty matching so that every dollar you contribute will be matched at least one to one.

Community Fund Raising
Talk to family, church members, community groups and keep the MMP in mind for your school fund raising activities. We are happy to provide more information about the project to help you spread the word.

CAN YOU AFFORD TO GIVE?
Consider what you might spend in one weekend:
• Ice cream for two: $10
• Going to a movie: $30
• Dinner for two: $75
• Weekend get-away: $200

If everyone gives just a little, we CAN make a difference.

Your contribution will change the lives of so many!

Your tax deductible donation can be made through the University of Maryland Baltimore Foundation.

Please make checks payable to “UMB Foundation”
