### Teaching Evidence in a Busy Clinic

Look up **evidence-based sources** together with learner

Develop a clinical question using **PICO format**

P = patient or disease

I = intervention

C = comparison

O = outcome

**1-minute windows** - open up 2-3 browser windows on your computer, choose evidence based research sites to search for clinical questions

- Dynamed (<http://www.ebscohost.com/dynamed>)
- Clinical Evidence (<http://www.clinicalevidence.com>)
- Essential Evidence Plus (<http://www.essentialevidenceplus.com>)
- Agency for Health Care Quality and Research (<http://www.ahrq.gov>)
- Cochrane (<http://www.cochrane.org/reviews/>)

**Evaluate evidence** for validity and pertinence to clinical case
