DEP STARTS WESTCHESTER CREEK CSO MODIFICATIONS

On/about the MONTH of MAY, 2016

Installation of Project Signage
Coordination of Preconstruction Photos and Videos
Survey and Layout on Eastchester Road and Morris Park Avenue
Test Pits along Eastchester Road and Morris Park Avenue
Demolition of surface features on Morris Park Avenue North
Coordination of temporary water shutdowns
Utility Relocation Work in Eastchester Road and Morris Park Avenue

Beginning in early May, 2016, the City of New York Department of Environmental Protection (DEP) will begin a construction project to modify sanitary and storm sewer structures on Eastchester Road and adjacent streets in the Westchester Creek collection area of The Bronx. This project has an anticipated completion date of Fall 2018.

WHERE WILL WORK BE PERFORMED?
Work will be performed on Eastchester Road between Waters Place and Bassett Avenue and on adjacent streets including:

- Eastchester Road between Waters Place and Bassett Avenue
- Intersection of Morris Park Avenue and Eastchester Road
- Westside of Eastchester Road
- Morris Park Avenue, West of Eastchester Road intersection

WHAT WORK WILL BE DONE?
Work scheduled on this project includes site demolition, installation of new storm and sanitary sewer structures, manholes, chambers, catch basins, hydrants, the replacement of distribution water mains, and site restoration.

WHAT ARE THE COMMUNITY IMPACTS?
The DEP is committed to maintaining a work site that is safe and clean. However, dust, noise and heavy equipment are common elements of construction and we ask for your patience during the project. There may be, at times, limited parking spaces on Eastchester Road in the vicinity of the work area. There also may be limited street access on certain blocks. However, deliveries to commercial and residential properties and emergency vehicle access will be allowed. In addition, the DEP will be baiting the construction zone on a regular basis to control rodent populations.
Water Service Interruptions
During the course of this project, temporary water service disruptions will be necessary in order to replace the water mains. If it is necessary for DEP to turn off your water service, you will receive written notice by 4 p.m. the day before service interruption. Water service will be restored everyday by 6pm. If additional shut downs are required you will receive a new notice daily until work is completed.

Pedestrian / Traffic
- Pedestrian access to buildings will be maintained at all times.
- Street closures may be required; warning signs will be posted in advance.
- Flagmen/Traffic attendants will be at construction site.
- Driveway access may be temporarily interrupted in order to complete construction.

Public transportation
- Bus stops and/or bus routes may be relocated/detoured during the course of this construction. Signs and directions will be posted noting the changes.

WHAT ARE THE HOURS OF WORK?
The project working hours is between the hours of 7:00 AM through 6:00 PM, Monday through Friday. Night and weekend work will also be required; however, advance notice will be given of any work outside of typical daytime hours.

WHO TO CONTACT FOR MORE INFORMATION?
- Please call Ms. Elizabeth Santamaria, Construction Community Liaison at 973-768-4593 or email esantamaria@kseng.com
- Visit the NYCDEP web site at www.nyc.gov/dep
- During non-construction hours, please contact the New York City Government Services and Information Hotline at 311.

We appreciate your cooperation and thank you for your patience while we rebuild NYC’s infrastructure.
