Glimpses into the Autism Spectrum Disorder

Brett S. Abrahams, Ph.D.
Assistant Professor, Departments of Genetics and Neuroscience
Albert Einstein College of Medicine

LeFrak Auditorium, Price Center, (Room 151)
4pm, Monday September 27th, 2010
Reception to follow

Biographical note:
Dr. Abrahams is interested in understanding relationships between disorders of human cognition and interplay between genes known to modulate risk. He received his Ph.D. in Neuroscience within the Center for Molecular Medicine and Therapeutics at the University of British Columbia in Vancouver, Canada. He later carried out postdoctoral training at the University of California, Los Angeles. Dr. Abrahams joined the Department of Genetics at Einstein this past summer and holds a cross appointment in Neuroscience. He has published widely in journals including Nature, NEJM, PLoS Genetics, and PNAS and currently serves on the Gene Advisory Board for the Simons Foundation Autism Research Initiative.
