SUPPORT TO STRENGTHEN FAMILIES

The Bronx Healthy Start Partnership provides access to confidential and comprehensive high quality medical and social services for pregnant and new mothers and fathers to help reduce preterm births, low birth weight, maternal complications and maternal and infant mortality.

BRONX HEALTHY START PARTNERS

is a collaboration of Albert Einstein College of Medicine, Bronx-Lebanon Hospital Center; Montefiore Medical Center, Group, and School Health Program; and other community partners.

To join the Partnership, contact the Community Action Network (CAN) @

A FREE, VOLUNTARY, AND CONFIDENTIAL HOME VISITING PROGRAM DESIGNED FOR PREGNANT WOMEN AND THEIR FAMILIES

This project is funded by the U.S. Department of Health and Human Services, Health Resources & Services Administration, Maternal & Child Health Bureau, grant H49MC28141.
The Bronx Healthy Start Program helps pregnant women get the health care and support they need during pregnancy and helps them manage the many changes they may have after the baby is born. When you enroll in the Bronx Healthy Start program you will be connected to health care and support services:

- A Case Manager will review your application and work with you to develop a plan to get the services you need.
- Refer you to receive prenatal care, family planning, stress management and other health care services.
- Connect you to other services to meet your nutrition, housing, parenting or educational needs.
- Work with you to arrange home visit to help ensure a healthy pregnancy and healthy baby.
- Families could receive home visits at least three months after baby is born.

Our clinical services are provided by Morris Heights Health Center and BCHN/Montefiore Medical Group; they will provide information sessions for enrollment and referrals to services. The Case Management staff will establish a trusting relationship with families to promote healthy pregnancy and child development, strengthen family relationships, and support both parents using evidence based home visiting curriculum.
