THE SIXTH ANNUAL
Isabelle Rapin Conference on Communication Disorders

Tackling the AUTISM Puzzle: From the Laboratory Bench to the Clinician’s Office

FRIDAY
NOVEMBER 30, 2018
8:30 AM to 4:00 PM
Price Center/Block
Research Pavilion
LeFrak Auditorium

Join us for a day of talks by expert clinicians and researchers as they discuss current issues and recent advances in the field.

PLENARY SPEAKER:
Helen Tager-Flusberg, Ph.D., Boston University
8:30–9:30 AM  CONTINENTAL BREAKFAST (available in Atrium)

9:30–9:35 AM  WELCOME & OPENING REMARKS
Sophie Molholm, Ph.D., Albert Einstein College of Medicine

9:35–9:40 AM  Isabelle Rapin: A Remembrance
Theodore Kastner, M.D., Albert Einstein College of Medicine and Montefiore Medical Center

9:40–10:05 AM  Early Identification of Autism: Updates From the Clinical Front
Lisa Shulman, M.D., Albert Einstein College of Medicine and Montefiore Medical Center

10:05–10:30 AM  Measuring Autism Symptoms and Related Behaviors with Multiple Technologies
Rebecca Jones, Ph.D., Weill Cornell Medical College

10:30–10:50 AM  COFFEE BREAK (available in Atrium)

10:50–11:35 AM  PLENARY SPEAKER: New Approaches to Understanding Language in Minimally Verbal Autism Spectrum Disorder: What Have We Learned and What Is the Future?
Helen Tager-Flusberg, Ph.D., Boston University

11:35–11:50 AM  At the Cutting Edge of Imaging Speech and Language Processing in the Developing Brain
Michael Crosse, Ph.D., Albert Einstein College of Medicine

11:50–12:15 PM  Autism Over Lifespan: Symptom and Behavioral Trajectories and Predictors
So Hyun Kim, Ph.D., Weill Cornell Medical College

12:15–1:00 PM  LUNCH (available in Atrium)

1:00–1:25 PM  Developing Neuromarkers in Neurodevelopmental Conditions
John J. Foxe, Ph.D., University of Rochester Medical Center and Albert Einstein College of Medicine

1:25–1:45 PM  The Mouse as a Model for Human Disease: Developmental Dysfunction of Inhibition in a Genetic Model of Autism
Renata Batista-Brito, Ph.D., Albert Einstein College of Medicine

1:45–2:05 PM  From Human Chromosome 22q11.2 to Mouse Models of Autism
Noboru Hiroi, Ph.D., Albert Einstein College of Medicine

2:05–2:20 PM  REFRESHMENTS (available in Atrium)

2:20–2:45 PM  Therapeutics of Core and Associated Symptoms of Autism
Eric Hollander, M.D., Albert Einstein College of Medicine and Montefiore Medical Center

2:45–3:00 PM  Are You Ready? Anticipation Processes in Children with Autism
Shlomit Beker, Ph.D., Albert Einstein College of Medicine

3:00–3:05 PM  CONCLUDING REMARKS

3:05–4:00 PM  RECEPTION
